**Fethi Azizi : Applied Analyses in Geotechnics** before purchasing it in order to gage whether or not it would be worth my time, and all praised Applied Analyses in Geotechnics:

1 of 1 people found the following review helpful. AwesomeBy V. JagodnikThe book is great. Lots of diagrams and formulas with simple description.I would recommend this book for graduate students and professors

No description available

The book aims to make the transition between theoretical analyses and applied design methods. - Ground Engineering
