By alohadudenycI purchased this book a over a year ago and it's almost time to replace my copy--I've read it so many times that it's starting to fall apart! Fabrizio is not only a fantastic artist, she's also a fantastic writer. The book is filled with her delightful art, stories from her life and inspiring exercises. As a writer who finds myself "stuck" from time to time, this is one book that never fails to get me moving again. This book is a favorite. 0 of 0 people found the following review helpful. Incomplete Kindle Version Unacceptable By Elizabeth M Literally half of the content of this book is simply missing from the kindle version. Approximately half of the pages are blank. Either remove from e-book store or fix the problem. This is embarrassing and unacceptable for a product. I have never seen such a below standard publication on Kindle. If this is any indication of overall standards, I suggest you make some changes fast or risk losing loyal customers like myself. This is the first time I have even considered not using Kindle and I am an avid reader and frankly I give it a lot of business. This is just insulting. Seriously guys get your act together. 4 of 4 people found the following review helpful. Whether you're an artist, a writer or someone with ...
