Victoria Charles PhD. : Dali (Mega Square) before purchasing it in order to gage whether or not it would be worth my time, and all praised Dali (Mega Square):

0 of 0 people found the following review helpful. Five StarsBy dreamcatsstunning book,rived quickly0 of 0 people found the following review helpful. short with lots of picturesBy R.L.D.A short read Interesting information and nice pictures. A problem is that the writing usually does not match the picture shown as the writing is somewhat of a chronological sequence that is usually not in sync with the pics

The Mega Square Dal offers a brand new perspective on the self-proclaimed genius work thanks to the close-ups on specific details. Victoria Charles, Parkstones most prolific author, once more delivers a great text about this Surrealist painter. The Mega Square's small and practical format is bound to make a perfect gift.

About the AuthorCharles has published many different works and is a regular contributor to an international guide to contemporary art.
