Five StarsBy michael andersengreat cd1 of 1 people found the following review helpful. freakishly goodBy Mindyg123 (Romance Authors That Rock)Mr. Nicholson does it again! Sure this is an alien story, but it's not your average alien story.The characters are the type you catch yourself cheering for and the background is great. The whole town is involved in the story but a few main characters stick out. It's your typical small hick town that something in the woods is out to take over. If you're into aliens then this is the book for you.0 of 0 people found the following review helpful. Love this album!By JanetI have always loved this album. After being separated from it for many years it's like meeting an old friend again.Anyone that loves the bluesey/bluegrass in your face style that Neil does so well will love this classic.. Enjoy. It still sounds as great as it did 30 years ago.
