Nice housesBy IndahNice houses in this book but i was looking for more photos. I wasn't interested in reading about the architecture. However some people might be.3 of 3 people found the following review helpful. amazing modernist houses. pure joyBy NiQfrom an architecture POV, this is not earth-shattering architecture. This is just updated style of Neutra from the 50s60s geoffery bawa in 90s but to do it on large scale can be tricky these pictures show flawless execution.Compared to the eyesore mcmansions or bad material choices for modernist homes by rich north americans, these indonesians show very good taste. Kudos to the author photographer for making the homes look even more beautiful.I found the indonesian style of homes[modernist] more consistent more enjoyable vs the variety of styles in the new malaysian homes which were less to my taste. So i highly

recommend this book. favorite homes: bea house, ridwan kamil house, ponkok indah, villa kalyani [repacking of the neutral vegas desert home in Indonesian materials], sunrise home, ampera house, tulodo bawah, ahmettt salina housestudio, puri indah house [something that Louis Kahn could have done—so amazing].

With over 350 full-color photographs, this Indonesia architecture and interior design book showcases the stunning luxury homes of Indonesia. The New Indonesian House presents twenty-eight homes in Jakarta, Bandung, Yogyakarta and Bali that illustrate the remarkable advances that have taken place in residential design in Indonesia over the last two decades. Indonesia's new generation of architects demonstrates not only their absorption of modern influences from the West and the more recent processes of globalization but also their sensitivity to the physical environment, the social context and the aspirations of the leading elite. With its stunning color photographs, The New Indonesian House will both delight and inspire the application of its exhilarating architectural and interior design expressions in any global setting.
