**Chase Reynolds Ewald : New Western Home, The** before purchasing it in order to gage whether or not it would be worth my time, and all praised New Western Home, The:

0 of 0 people found the following review helpful. Five StarsBy MARK OERTELGreat Book, came quickly.0 of 0 people found the following review helpful. Five StarsBy PaulaThe service was great, the book is already sort of dated.7 of 10 people found the following review helpful. Living The Beautiful Life-Western StyleBy C. AndersonThis is a wonderful book full of beautiful pictures of western homes and decorating. A feast for the eyes full of ideas for your home as well as different looks to build if you may be considering building someday. This is also a great book to sit down and have a cup of coffee with and dream away the hours by the fire

The New Western Home proves that environmentally responsible and regionally appropriatechoices can encompass cutting-edge designs and materials and that high end doesn't have to meanoverbuilt.

For anyone seeking to move "off the grid" or for those who just dream about a house in the country, The New Western Home offers an abundance of ideas for a wilderness hideaway. ranches with soaring prairie vistas; quiet fishing cabins along the river; mountain hideaways tucked among the trees; historic urban factories renovated into stylish condos-today's western homes share a spirit while covering a wide range of western styles in both architecture and design. Author Chase Reynolds Ewald pays tribute to this spirit through fourteen human-scaled structures that exemplify sensitive renovation and preservation of the region's past. The New Western Home proves that environmentally responsible and regionally appropriate choices can encompass cutting-edge designs and materials. Among the homes featured are a "new, but built to look old" cabin compound at the bend in a river, sustainable high country hideaways built completely off the grid, and an art-filled Wyoming ranch. And for the modernist minded, several of these homes show that contemporary, minimal interiors actually facilitate a full engagement with dramatic western landscapes and unique high-altitude light. In a changing and timeless West, The New Western Home honors originality and sensitivity and celebrates dwellings with soul. Chase Reynolds Ewald holds degrees from Yale and the Graduate School of Journalism at U.C. Berkeley. Founder of a nonprofit guest ranch in Wapiti, Wyoming, she now lives in northern California with her husband and four daughters. West Coast Senior Editor for Western Art Architecture magazine, Chase is the author of six previous books, including Arts Crafts Style and Spirit and Cowboy Style. She is the co-author of New West Cuisine and Sweet Treats from the Wild West. About the Photographer Audrey Hall's portraits and photo essays appear regularly in numerous magazines, including Western Interiors and Design, The Big Sky Journal, and Mountain Living. Hall has photographed seven previous books, including Picnics, Off the Grid Homes, and New West Cuisine, and has contributed to many more.
