From Birkhauml;user : Nexus Network Journal 14,2: Volume 4 before purchasing it in order to gage whether or not it would be worth my time, and all praised Nexus Network Journal 14,2: Volume 4:

This volulme features eight original papers dedicated to the theme "Persian Architecture and Mathematics," guest edited by Reza Sarhangi. All papers were approved through a rigorous process of blind peer review and edited by an interdisciplinary scientific editorial committee. Topics range from symmetry in ancient Persian architecture to the elaborate geometric patterns and complex three-dimensional structures of standing monuments of historical

periods, from the expression of mathematical ideas to architectonic structures, and from decorative ornament to the representation of modern group theory and quasi-crystalline patterns. The articles discuss unique monuments Persia, including domed structures and two-dimensional patterns, which have received significant scholarly attention in recent years. This book is a unique contribution to studies of Persian architecture in relation to mathematics.
