**Thomas, J. Dennis : Nikon Creative Lighting System Digital Field Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised Nikon Creative Lighting System Digital Field Guide:

A full-color, go-anywhere guide to Nikon's entire array of creative lighting possibilities Nikon's Creative Lighting System is like having a low-cost, wireless, studio lighting system that's portable enough to fit into a camera bag. Although the possibilities are endless and exciting, setting up, synchronizing the equipment, and determining lighting ratios can be a bit overwhelming. Luckily, this Digital Field Guide has been completely updated to shed some light on

the situation! Beginning with the basic functions of the Nikon SB-900, the SB-800, and the SB-600, the author then goes on to demystify the complexities of using multiple speedlights, adjusting flash outputs, and setting up a wireless studio. Clearly explains how to get the best results when using multiple speedlights Includes examples and unique advice on how to light specific subjects, such as weddings, wildlife, portraits, product shots, and corporate locations Covers other Creative Lighting System components, such as Nikon's wireless commander and macro speedlights With this handy, on-the-go guide, you'll no longer be in the dark on Nikon's Creative Lighting System.
