I'm a newbie when it comes to DSLR cameras so this would be the perfect book for me and it did not disappoint. Very thorough explanation of everything and how to use all the different features of the camera.21 of 22 people found the following review helpful. Great ProductBy Augusto MendezI recommend this book for any person who wants to start in photography using this amazing camera. Clear sheets and images, easy-going explications and shows you how to get 100% of your Nikon D3300.0 of 0 people found the following review helpful. what can I sayBy DalThere's a lot here that I have to read. It has a lot of good references and starts "at the beginning." I'm am pre reviewing this as I assume it will be taking me through EVERY function of the camera so I can use it all and have great in focus photos from here until... I still own a Nikon all manual film camera with 3 lenses--no fancy auto-programing. Hopefully my Nikon family last forever which I cannot say for my point and shoots: Fuji, Canon, Olympus, Lumix.
