Mark Dudek : Nurseries: A Design Guide before purchasing it in order to gauge whether or not it would be worth my time, and all praised Nurseries: A Design Guide:

Architecture can inspire young children; the very shape and form of a daycare center can not only stimulate their imagination but can help children form strong relationships and help promote development. This design guide presents all the elements of building design that combine to create the very best environment for young children and the people who work with them, including building materials, multi-functional spaces and design scaled to suit small children.

About the Author Mark Dudek is a Research Fellow at the School of Architecture, University of Sheffield and is a practising architect. Mark runs his own London-based architectural practice, Mark Dudek Architects.
