Great Cliff Note's Version of the More Modern History of OKCBy RocknRollGal109I actually read this book twice because I felt that I had missed a few things the first time around. What a great Cliff Note's version of recent OKC History. I think the first 3 chapters were very well written and detailed oriented. The Author managed to transport me back to the time my mother was born and gave me a better insight into what was going in her world during that time period. The rest of the book is a pretty easy read and provide some interesting pictures of recent changes to OKC so that the reader can compare that to images from the late 1800's. I thought it was actually a nice touch to include some family photo's so that people 100 years from now can see what was going on at the turn of the 21st century. I thought Mr. Griffith did an excellant job on taking us down memory

lane. Although this particular book was not my favorite I find it a great read and a must book for those history lovers in your family. DC0 of 0 people found the following review helpful. Awesome bookBy Michael TetonPics like okc

Terry L. GriffithAfter receiving hundreds of requests for additional copies of Oklahoma City:1930 to the Millennium,  
Arcadia has decided to re-print this edition.

Since this wild frontier land was settled at the bang of a gun one April morning, Oklahoma City has grown rapidly, experiencing some of the most drastic changes of all over the past century. Many of the photographs in this new volume show construction and development as the city began to truly prosper—downtown skyscrapers and modern highways, museums such as the Cowboy Hall of Fame and the Kirkpatrick Planetarium, and major plants operated by General Motors and Dayton Tire Rubber Company. Recent images highlight celebrations, including high school football games, outings to Bricktown and Myriad Botanical Gardens, and finally, Opening Night 2000.

About the AuthorFeaturing an introduction by Mayor Kirk Humphreys, this book brings Oklahoma City's history to life once again, this time focusing on the period from 1930 to 2000. Local historian Terry Griffith presents over two hundred images from various collections across the city, combined with educational and entertaining captions to illustrate the city's history from the early days of the twentieth century to the welcoming of a new millennium.
