Kindle Version is GREAT for Practice and Backup but lousy for PerformanceBy WhooRahGREAT tool for learning new songs, but keep in mind that you don't want to use the Kindle version of these books for performance. Reason? Kindle doesn't play with Blue Tooth Switches. This is a major issue for us Bass players. Missing a bar equals trolling for a poke in the nose. You don't have time for the finger swipe thing. Take up the Sax.You'll have to copy the pieces you need for performance over to Mobile Sheets for Android and get a Gigeasy. Its a Colorado thing, you wouldn't understand.....0 of 0 people found the following review helpful. Excellent. It's "the book" for jazz musiciansBy J. CrossExcellent. It's "the book" for jazz musicians, and this bass clef version is just right for trombone players like myself. Also a G-clef version.0 of 0 people found the following review helpful. Better tunes than vol IBy Dr GAlthough all blowing jazz musos are expected to have volume I, volume II actually has better tunes, so I recommend getting it as well, to have even more fun and entertain audiences more.I would love it if

this was supplied with an electronic version as well. E.g. charts that can plug into iGigBook.

(Fake Book). The Real Books are the best-selling jazz books of all time. Since the 1970s, musicians have trusted these volumes to get them through every gig, night after night. The problem is that the books were illegally produced and distributed without any copyrights or royalties paid to the master composers who created these musical canons. Hal Leonard is very proud to present the first legitimate and legal editions of these books ever produced. You won't even notice the difference...the covers look the same, the engravings look the same, the songlist is nearly identical, and the price remains fair even on a musician's salary! But every conscientious musician will appreciate that these books are now produced legally and ethically, benefitting the songwriters that we owe for some of the greatest music ever written! Melody, lyrics, and chords for 400 songs, including: Air Mail Special * Birdland * Bye Bye Blackbird * Caravan * Doxy * Fly Me to the Moon (In Other Words) * Georgia * Girl Talk * In Walked Bud * I Remember You * I Thought About You * The Jody Grind * Just the Way You Are * Killer Joe * Little Sunflower * Mercy, Mercy, Mercy * Moanin' * The Nearness of You * Now's the Time * Old Devil Moon * Phase Dance * St. Thomas * Speak Low * Stardust * Tangerine * Tenor Madness * Watch What Happens * Whisper Not * Willow Weep for Me * Yardbird Suite * and more.
