Not the best, but right up thereBy Eric SedenskyI resisted buying this book for the longest time, simply because, already owning The Real Book: Sixth Edition and The Real Book - Volume II (C Instruments): C Instruments 2nd Edition (Fake Book), I had charts for more songs than I could learn or play in a lifetime. But then, I had a chance to peruse one in a music store, and found it had a lot of tunes that I really wanted to play, including The Jive Samba, Witchcraft, and Poinciana. Then when I got the book home and saw how well it complimented my other Real Books, I wondered why I ever hesitated. Yes, it's true that volumes 1 and 2 contain a lot more of the jazz standards that you are more likely to hear and want to play, but I think this volume is a good investment for diversifying your tune selection and for an overall broadening of your jazz scope. After all, how many times can you play Autumn Leaves and All The Things You Are before you start boring your audience to tears? Jazz performers and musicians, get this book. You won't be disappointed.0 of 0 people found the following review

II - IV (at least) have a weird shortcoming: If you read them using the web-based reader, the title is detached from the music, so you get a page with just the title on it and a separate page with the music and no title. This seems to be true of every song from Vols. II to IV. Also, when reading on the Kindle Reader in Fire HD 8 or Android, if I enlarge a page, only the music enlarges and it then covers up the title. The title seems to be plain text while the music is a scanned image. It's different with Vol. 1 -- that is all scanned, so it's like the book and it looks like the book. The title is not detached from the music. 2 of 2 people found the following review helpful. Gotta have it By Frito-Lay Whole lot of tunes in there that you've either never heard or forgotten. Quality printing and comb-bound.

(Fake Book). The Real Books are the best-selling jazz books of all time. Since the 1970s, musicians have trusted these volumes to get them through every gig, night after night. The problem is that the books were illegally produced and distributed without any copyrights or royalties paid to the master composers who created these musical canons. Hal Leonard is very proud to present the first legitimate and legal editions of these books ever produced. You won't even notice the difference...the covers look the same, the engravings look the same, the songlist is nearly identical, and the price remains fair even on a musician's salary! But every conscientious musician will appreciate that these books are now produced legally and ethically, benefitting the songwriters that we owe for some of the greatest music ever written! Melody, lyrics, and chords for 400 songs, including: Ain't Misbehavin' * All or Nothing at All * Along Came Betty * Cheek to Cheek * East of the Sun (And West of the Moon) * Funkallero * H H * I've Got the World on a String * I've Got You Under My Skin * The Jive Samba * The Lady Is a Tramp * Milestones * Moonlight in Vermont * A Nightingale Sang in Berkeley Square * On a Clear Day (You Can See Forever) * Samba De Orfeu * Stormy Weather (Keeps Rainin' All the Time) * Things Ain't What They Used to Be * The Very Thought of You * Violets for Your Furs * Watermelon Man * and more.
