**Krista Smith : The Right Light: Photographing Children and Families Using Natural Light** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Right Light: Photographing Children and Families Using Natural Light:

1 of 1 people found the following review helpful. I LOVE this book  
By Christina Rexford I LOVE this book! It is very well written, and very descriptive. I have learned so much from The Right Light!  
1 of 1 people found the following review helpful. Beautiful work!  
By kim Love the book! Extremely talented photographer. It clearly shows in this book!  
4 of 4 people found the following review helpful. The Right Book for the Natural Light Photographers  
By D. Waiters Many photographers who call themselves Natural Light photographers are really clueless. This books helps the photographer get a better grasp of the concept and the additional resources needed such as reflectors, understanding

the time of day to shoot. How to find the best light to shoot in, direction of light. The Getting Started section talks about developing a style, Finding Models for available light TESTING sessions. This is so important so that the photographers does not experiment on paying clients. Cant recommend this book enough. Please pick and follow the lessons inclosed

Natural light can be the right lightmdash;indoors and out, all day long. Working with children, families, and couples, Krista Smith covers the entire process of designing natural-light portraits that are as vibrant and colorful as the personalities and relationships they depict. From early morning, through the tricky midday hours, to the end-of-day sunset shots, Smith shows you where to find the best natural light and how to use it most effectively for flattering results. She also explores the impact of weather on the quality of the natural light and demonstrates how it can be turned to your advantage for stand-out results. For indoor shoots, Smith demonstrates how one simple window can produce classic portrait looks and demonstrates simple background and lighting refinements that put you on the path to studio-quality results. From marketing and scheduling, to location selection and shooting, to product design and branding, this book presents a road-map to professional success in natural-light portrait photography.

About the AuthorKrista Smith is a photographer and writer based in Pensacola, Florida. Her work has appeared in nationwide magazines such as Where to Retire and in Amherst Media books such as 500 Poses for Infants and Toddlers, 500 Poses for Photographing Group Portraits and others.
