It has a very good selection of songs including Canon in D, Ave Maria, Trumpet Overture, etc. The book is written in standard music and tab. What I REALLY Like about the book is that chord diagrams are used. Rarely, it ever, do I find chord diagrams in classical guitar books. I have a foundation in rock music and the tabs help me visual what chords are used in the melody. The arrangements are beautiful and complete. Once you master the content of the book you will be able to handle any wedding ceremony that comes your way.0 of 0 people found the following review helpful. Excellent SelectionBy CustomerExcellent
