A must have and a must read By David Medina I just got "Wedding Photography from the heart" by Joe Buissink and Skip Cohen yesterday and I can't put it down. It is like having a personal conversation with them. It gives you an inside look at how Joe Buissink works but not with the purpose that the reader will imitate him but that he/she will develop their God-given talent and take it to the next level. True to its purpose, it has challenged me to go out there and shoot with intent. To shoot from the heart more. To learn to see instead of just looking. Among many recipe books, it is refreshing to have a book that really helps you go deeper into your "inner photographer" so you, too, become better. I know that this is a book I will have to read many times to get it all. If you are a professional photographer, I highly recommend it as one book that should be in your library and read often. 0 of 0 people found the following review helpful. If you have looked at any of his videos on YouTube then some of what he said here will be familiar but always good to read it again. 15 of 15

I just received my book two nights ago, and sat down and read the entire book in one night! This book has some stunning photos, and contains great information and tips for photographers who want to capture the most beautiful and intimate moments of a wedding. Joe's advice is practical and uncomplicated, which I love. Everything from lighting to equipment to how to gain your clients' trust and capture people in their natural states is included in this book, which is truly an enjoyable book to read. It isn't too heavy on jargon/technique and is easy to navigate through to find the topics you are most interested in. I'm very happy I purchased this book and send my congrats to Joe on a job very well done - as always! I continue to be a raving fan!

A behind-the-scenes look at master wedding photographer Joe Buissink's acclaimed style "There's no such thing as a perfect image; only a perfect moment," says Joe Buissink, one of American Photo's Top 10 Wedding Photographers in the World. In *Wedding Photography from the Heart*, the premier photographer gives us an inside look at how he captures the feeling of a couple's wedding, seeing the moments from their perspectives and hearts. Here, for the first time, are more than 150 of his stunning images—including many from celebrity weddings—accompanied by creative techniques, inspiration, and unparalleled advice. Joe brings us into his creative process, emphasizing "learning to see"—training yourself to anticipate the moments that matter—and, most important, developing a relationship of complete trust with your clients. His goal is not necessarily to take technically perfect photos, but to capture the right moments, transforming intimate, emotional memories into timeless images. A must-have for all professional, semipro, and aspiring wedding photographers—as well as brides and grooms looking for inspiration—*Wedding Photography from the Heart* reveals how to create wedding photographs that will, even decades later, capture the joy of a couple's wedding day.
