Great Service, Timely Delivery.1 of 1 people found the following review helpful. Great album, great transcriptionBy Luke SchreiberTrue to album instruction of the greatest album ever recorded. What else do you need?1 of 2 people found the following review helpful. Classic Weezer - Rivers at His BestBy BATHis album is a classic. Rivers Cuomo was obviously going through a hard time, but pain makes for great art, specifically great rock music. This album is passionate, gritty and emotional. Rivers pours his heart into this album and it shows. Musically it is genius; the band is right on the money, every song (as they consistently are). This album will take you on a ride, punctuated with Rivers' occasional yelps and yells throughout. It's a different sound than the Weezer of recent, not as pop sounding. I love all the Weezer genres, but this album will please Weezer fans and non-

fans alike.

(Guitar Recorded Versions). Exact transcriptions of all the raging guitar sounds on the 10 songs from their second album: Across the Sea * Butterfly * El Scorcho * Falling for You * Getchoo * The Good Life * No Other One * Pink Triangle * Tired of Sex * Why Bother?.
