There are some pieces which are pretty easy for an intermediate pianist to run through, and others that may require more practice to play decently. I love Cindy Berry and think this is one of her most useful collections to purchase as a small church pianist. For those more professionally trained pianists, this book might be rather simple and not challenging enough, but it's perfect for me.0 of 0 people found the following review helpful. LOL Overall, I liked the songs. I added a few things here and there, but it gave me some great ideas.
