**Sally Anderson : Where Does My Shadow Sleep?: A Parent's Guide to Exploring Science with Children's Books** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Where Does My Shadow Sleep?: A Parent's Guide to Exploring Science with Children's Books:

0 of 0 people found the following review helpful. Amazing bookBy CustomerI love this book! lots of ideas to enhance your little one's creativity.0 of 0 people found the following review helpful. Book has a lot of good ideas on science projects with childrenBy Marina KonfisakharBook has a lot of good ideas on science projects with children. Good addition to parents' (or grandparents') library.

Use your child's favorite books to explore and investigate the world of science! Young children are investigators by nature, just like scientists. They question our world, asking Why? How? When? and What if? They are curious about our climate and the creatures that occupy our Earth. They make predictions and use materials and tools in creative, new ways. They even problem solve and experiment as they process new ideas. With the help of the stories and activities in Where Does My Shadow Sleep? take the time to watch, wonder, ask questions, talk about, and

explore the world of science with your child. Use favorite children's books to investigate animals and insects, learn how plants grow and change, and discover how shadows grow and shrink. With four chapters that cover a multitude of themes, it's never been easier to deepen your child's understanding of important science and reading concepts at the same time!

**About the Author** Sally Anderson is the founder and executive director of the Vermont Center for the Book, an affiliate of the Center for the Book in the Library of Congress. She has created professional development programs for early childhood educators and librarians across the country, including courses centering on math, science, social studies, and early literacy. Sally is the author of *Social Studies and Me!* and is a recipient of many awards and honors, among them the Hope S. Dean Memorial Award from the Foundation for Children's Literature, the Lyman Hunt Jr. Award from the Vermont Council on Reading, and a Special Recognition Award from the New England Reading Association.
