At first simple - growing more complex as one ponders the lines and movement that make these drawings come alive. I keep this book by my desk to flip through when stress invades my day. These works can calm my worried mind.0 of 0 people found the following review helpful. Beautiful, Graceful Line Drawings collectionBy Mary A. TomlinsonBeautiful, graceful collection of line drawings and wash art of the human form. Perhaps my favorites are the fluidity and implied movement of "The Dancer" and the quiet innocence of the "Young Girl with the Long Hair." So much expression depicted in Ms. Songe's art.0 of 0 people found the following review helpful. Gabrielle Songe's work leaves an indelible mark on your heart ...By Kecia Mowers ReidGabrielle Songe's work leaves an indelible mark on your heart. After you see it you will never forget it. Quiet intensity and passion in every line. This is not just a coffee table book. This is a book to look at again and again. Share it with people who appreciate beauty and truth.

Impressions of the human form are revealed as gesture line drawings, pen-and-ink renderings and washes in this art only edition of Whippoorwill Calls. A male torso simultaneously demonstrates strength and sensitivity. One figure crouches in despair as another reaches skyward. One drawing in mere lines suggests movement with the swirl of a dancer. Clearly the human figure is a source of wonderment and beauty depicted much like an improvisation in jazz.
