Anthony Bozza : Why AC/DC Matters before purchasing it in order to gage whether or not it would be worth my time, and all praised Why AC/DC Matters:

1 of 1 people found the following review helpful. Not Anthony's bestBy BolterI read Slash by Anthony Bozza and loved it. I am not even a fan of Slash or GNR; however, I am fascinated about most things having to do with Rock musicians.I actually like AC/DC, yet this book was a letdown for me. Mr. Bozza kept repeating the same elements over and over (seemed that way to me at least).The reviewer who said this would make a better magazine article was absolutely correct in my opinion.Finally, it was too short a book for the price, yet rather conflicting for me was it was too long based on what was actually written - due to the subject matter repeating over and over.My feeling upon finishing the book was that I just read a (long) introduction and I kept expecting the actual book to start. A shortened

version of the book would actually make a great introduction to an AC/DC history book.0 of 0 people found the following review helpful. Excellent book! Anthony Bozza breaks it down as to ...By Jodine HammerandExcellent book! Anthony Bozza breaks it down as to why AC/DC's music is so important.Plus, just the bands methodology and the fact that their concerts are FOR the fans, andnot just for them to make \$\$\$. They play their hearts and souls out for three hours.0 of 0 people found the following review helpful. Five StarsBy AnonymousNailed it...

Australian rock giants AC/DC have sold more records in the U.S. than Michael Jackson, Bruce Springsteen, Aerosmith, and than the Rolling Stones, yet have always been undervalued and unappreciated by mainstream rock music critics. In *Why AC/DC Matters*, former Rolling Stone staff writer and New York Times bestselling author Anthony Bozza addresses this inequity, penning a just tribute to these monsters of rock. Brimming with fascinating stories and insights from musicians, fans, music scholars, and the author himself, *Why AC/DC Matters* is an overdue homage to arguably the greatest rock and roll band of all time.
