Christian Connor : Winslow Homer: Paintings before purchasing it in order to gauge whether or not it would be worth my time, and all praised Winslow Homer: Paintings:

Winslow Homer was an outstanding American painter, best known for his marine landscapes and one of the greatest figures in American art for all times. His oil paintings and watercolors in a similar way are distinguished by an uncomplicated way, clear realism, objectivity, and exciting colors. His powerful and dramatic interpretations of the sea have never been outshined and grasp a unique place in American visual art. His paintings and watercolors are in most important museums throughout the United States and overseas. His work is distinguished by bold, fluid brush-work,

strong composition, and chiefly by a lack of sentimentality.
