The music is also written very clearly and too many measures aren't squished on a line--however, it's not overly spread apart either. 'Easy to Intermediate' explains the level--it's not an oversimplified 'Beginner' level. I love that the book has a spiral binding. Why don't ALL music books have that??? The only negative is that I couldn't log onto the MP3 pieces that are supposed to be available. However, the book is so good that I didn't delete a point for that.3 of 3 people found the following review helpful. Beautiful compositions and

not too complicated  
By Karen Kusserow I completely agree with the 1st reviewer. GREAT book with beautiful pieces. I only had 3 years of lessons, as a child, but have tried to maintain some skills. Many pieces in this book are easy to sight read and others take a bit of practice but it is well worth it. I am thrilled with this purchase and intend to use this book daily.
